

# UNIVERSITY OF CHICAGO INNOVATION FEST

A month-long, city-wide celebration of UChicago innovation, cutting-edge research, and entrepreneurial activities that impact people's lives.

## CELEBRATE INNOVATION

### Hosting an Event

Host an event to showcase your organization's high-impact work, how you're tackling a problem in a new way, disrupting the status quo or more. Past events have ranged from panels to TED-style talks to workshops. We'd love to hear about your ideas or if you're already planning something awesome for May. Contact us at 773.834.3695.

### Attending and Advertising Events

Many events may be right up your organizations' alley, as our topics cover everything from entrepreneurship to science to law to social policy to art. Please join us in person or share with your communities -- we'd love to see everyone there! More resources to follow.

### Hashtag Social Engagement

Keep the conversation going on social media. Share photos, insights, and reactions from events using #InnoFest.

### Help Fuel Innovation

Becoming a sponsor gets your name and brand in front of large audience and can be had at a variety of donation levels. Gold (\$1,000), Silver (\$500), and Bronze (\$250) sponsorship levels are available. Contact us for more info!
